Hallo dear MMMonVHF friends,

please find below the NEWSLETTER of "Make More Miles on VHF"
the VHF-DX-Portal, dated 2008-07-04.

We attempt to distribute the NEWSLETTER one or two times per week.
For more details, please be so kind and refer at the "NEWS"-page
http://www.mmmonvhf.de/latest.php and check for the latest NEWS
(last 24 hours lines blinks / up to 3 days lines marked orange):

****
Latest NEWS/INFO for the NEWSLETTER - MMMonVHF The VHF-DX-Portal
****

METEORSCATTER - NEXT MS-SHOWER:
Southern Delta-Aquariids, with maximum on July 27. High mean
Sporadic meteor rate (with daily maximum in the morning), together
with several minor showers, are able to provide good chances to
MS-DXers in July, even if no big showers cross Earthï¿½s orbit this
month. However, best period in July is at the end of the month,
when a medium shower (Southern Delta Aquariids) appears, combined
with some other minor showers. The new MS Shower peaks are updated
and available at our MS-Propagationpage: www.mmmonvhf.de/ms.php

Tor, DJ8MS, will be again on business trip up to Kiruna, SM2 (KP07),
in July/August. Up to date infos at his MMM DXBlog at:
http://www.mmmonvhf.de/showblog.php?ca=SM-DJ8MS On the way up north
it's intended to stop by in JP72 and JP84, maybe also JP97. Activty
will be mainly random MS in the evening and morning hours. Maybe
this year some more activity from KP07 itself over the weeks.
During the weekends I'll propably be qrv from some gridsquares in
SM2/LA/OH... Maybe also some EME tries... who knows. Stay tuned.

Take info that our club station IQ8BI/8 will be operative during
IARU July contest on all VHF UHF and 1200 MHz bands, ww.loc JN71il
We will have sure also MS, but don't know if the contest will give
us time to spend. Surely we will be sometimes active in the night
and morning before the contest date... We will be at JN71il, 4x12
el DJ9BV + 3CX800A7 1kW PA + dressler, also active 432 (27 el
Shark + 8877 1kW PA) and 1296 (55 el + 10 W TS790 barefoot...).

The Carolina DX Association is proud to announce that N4BX will be
activating Fox Mike 13 for the upcoming CQ WW VHF Contest, July 19th
and 20th. Fox Mike 13 is on the list
http://www.arrl.org/awards/ffma/Most_Wanted_Grid_Survey.pdf
of rare grid squares, and is one of the rarest grid squares on the
east coast. The CQ Worldwide Contest is a twenty seven hour, two band
contest, featuring Six Meters and Two Meters. It begins on Saturday
July 19th at 1800 UTC (2PM EDST) and runs through Sunday July 20th at
2100 UTC (5PM EDST). Read more abt. the Frequencies N4BX will be on:
http://www.mmmonvhf.de/latest.php?id=1707 Source. N4BX on Reflector

Jim (K4BI) & Mario (K2ZD) will be active as ZF2BI and ZF2ZD from
Cayman islands, EK99GI on 6m ES and EME (WSJT). ZF2ZD Mario is
active on six meter Meteor Scatter and EME until July 6th. I worked
Mario this morning in 17 minutes using FSK441. His station is 1Kw
with 6M5X at 55Ft and 174 Ft. from the ocean. (Should be workable
for many stations). I believe with his station he should be able to
work some longer meteor scatter contacts. Our distance was 1168
miles and his pings were very strong and often.

3A2M - Trip...
Hi all, unfortunately ARM (Association Radioamateur Monaco) has not
been able to obtain in time, from the government, the use of a
suitable building, so the activation of 3A, by the Italian team,
is temporarily cancelled. We are very downhearted, all equipment was
ready, and we were already in the right frame of mind, sorry for the
illusions we created. We will meet with ARM soon to examine future
possibilities. I am sure that we will be able to activate 3A, but
surely not in the near future, so you can put the red sign in MMM.

N6VMO CM94 QRV July 4 - 6 144.128Mhz and 1296.068MHz JT65B 1st.
I will be QRV on 144.128MHz and quite possibly, for the first time,
on 1296MHz this weekend! Mode will be JT65B/C and 1st sequence.
The EME site does have internet access, so look for me to announce
my presence on the both bands. I will only be able to operate one
band at a time, since they will share common feedline and relay
sequencer. If 1296 testing goes as planned, I will switch from 144
to 1296. July 4: 1500UTC - 1900UTC July 5: 1600UTC - 2000UTC and
July 6: 1700UTC - 2100UTC - More at: www.mmmonvhf.de/latest.php?id=1705

Market Reef, OJ0. A team of five operators will visit Market Reef
in July, led by OH1VR, Seppo, and including G0CKV, Olof; G3SXW,
Roger; OH3RM, Markus; and W6RGG, Bob. They expect to arrive on Friday
July 11th and leave on Monday the 14th, depending of course on sea
conditions. They will be active in the IARU Contest in the multi-
operator category as OJ0A. Before and after the contest they will
be active on 160m to 6m with 3-4 stations as OJ0/home call and OJ0VR.
Seppo is taking a 5 element yagi for 50 MHz. QSL to OJ0A via OH3RM,
OJ0/home call via home call, OJ0VR via OH1VR.

Greenland, OX. OZ1DJJ, Bo Christensen, tells The Daily DX he will
depart Denmark on July 9th and he will be heading back to Greenland,
where he will be QRV as OX3LX from grid locator GP60xr until July
23rd. While there he may try 2 meter EME and will definitely be on
50 MHz with a 4 element yagi running 100 watts. This will be a business
trip, so don't expect a 24/7 operation on this one. Plans are to
update his Web page in the next day or two - www.ox3lx.geronne.dk.

San Andres, HK0. Update. W5OZI, Pat, is the pilot station for 5J0M,
the six meter DXpedition to San Andres by K7BV, Dennis. Pat gives
us the following update on 5J0M. "Presently QRV but only with 100
watts. Amp problems due to rough handling at HK customs where they
unplugged some jumpers and maybe more. Dennis insists that this ACOM
has been completely reliable on many trips and that it is not an
ACOM fault. W1JJ is in contact with the ACOM factory in Bulgaria and
hopes to get some kind of fix to forward to Dennis. Another power

supply has gone bad since V36M, so he cannot operate HF and 6m at
the same time. Dennis has had only about 20 QSOs so far, all with NA.
N5BLZ was #1. He will move the beam every (approximately) half-hour
between EU and NA, and wants hams to call him even if they have
already worked him so as to give him an idea about band condx".

Hello all, Joachim CT1HZE will be qrv 70cm EME with a temporary
system for the next 6 weeks. Last day of operation will be August 15th.
My setup is 4 x 23 ele Yagi and about 1.2 KW with full elevation.
I have just made my first QSO with DK3WG and we exchanged -24 / -14
allthough AZ/EL not calibrated yet. I am ready for skeds on JT65 and
CW, preferably between 06:00 and 23:00 UTC. 73 Joe, CT1HZE, IM57NH
